

SMART ONLINE APPOINTMENT AND TIME MANAGEMENT FOR ENTERPRISES

✔ ISO 27001 certified ISMS ✔ Trusted by 100% of our enterprise customers

THE PERFECT TOOL

for a better customer experience

Your customers can book appointments anytime, from any device, thanks to seamless integration within your environment. This reduces the friction of scheduling via phone or email and keeps your clients informed at every step of their journey with your teams.

At the same time, to optimize your employees' performance, you can manage team schedules across all your locations in just a few clicks.

of users consider customer service quality a key factor in their purchasing decisions.

APPOINTMENT MANAGEMENT

anywhere, anytime

By integrating a solution like Agendize into your workflow, your customers and prospects can book appointments without any effort on your part.

Your teams can focus on high-value interactions thanks to pre-qualification. As a result, you respond faster and more accurately to client needs boosting satisfaction and loyalty.

 agendize®

MAKE SECURITY

your best customer experience ally

A trusted European solution, designed to meet the requirements of enterprises worldwide, our philosophy has always been to deliver secure, long-term services to our clients.

We ensure a service that meets our clients' ambitions through full GDPR compliance, ISO 27 001 certification, and flexible hosting options (SaaS, dedicated SaaS, or on-premise).

5-STAR SERVICE

through optimal response

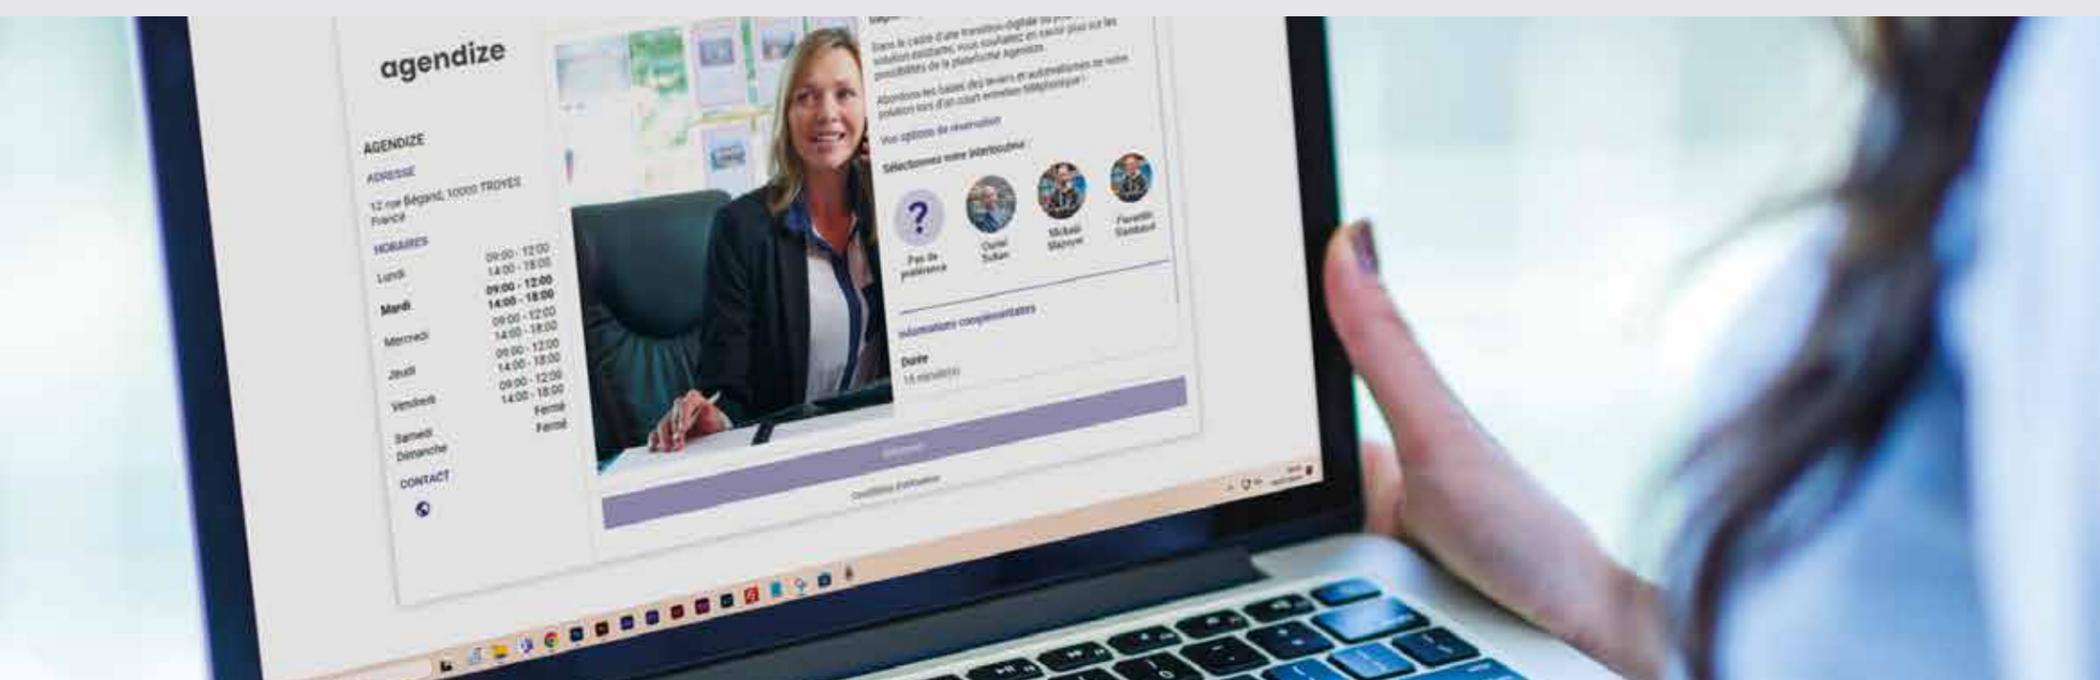

By trusting an online appointment tool to manage all your teams across every location, you take a major step toward greater customer satisfaction.

With pre-qualified appointments, you understand client needs before the meeting and can organize your teams to deliver expertise where it matters most.

SEAMLESS INTEGRATION

into your existing environment

With the expertise of our teams and a customizable, API-rich platform, we ensure continuity by integrating seamlessly into even the most complex IT environments.

THEY TRUST US

" Agendize stood out with its adaptability and flexibility. We wanted to work with a French company for deployment in France, but one capable of scaling internationally as well. We always get answers to our technical questions, and we can feel the motivation and commitment of their team. "
